Dear Sirs,

You have sent me information regarding your review with a letter dated 18th December. The charity I work for rents an office from the Diocese of Salisbury. I cannot understand why you have sent this information to us. We are not involved in any way with the electoral process in Salisbury and on a personal level vote outside of Salisbury. I am not sure how this organisation got onto your register or database, but you may wish to remove us as I think sending me this information is a waste of your time and resources.

Yours faithfully,

Diana James
